Try to reach every student and ask for their doubts...

I would like to see more participatory teaching-learning process and that instructive mode to be made flexible with encouraging creativity from the students' side.

Sorry

Student teacher interactions are not well managed, a lot is needed to be done for enhancing efficient learning process, exeptions are there but overall proper coordination is lacking.

Teaching process is good but the teachers should be extra friendly with students, Teachers should not do tough marking, Teachers should be good to students
